## THE INTERCITY TECHNOLOGY CUSTOMER PORTAL VISIBILITY, CONTROL AND ACCESS TO YOUR ACCOUNTS 24/7

### REPORTING & VISIBILITY OF ACCOUNTS

The portal enables analysis of your accounts, centralising and simplifying reporting

### DASHBOARD MONITORING

Customise your dashboard to identify key trends in usage and avoid overspend

### SIM ACTIVATION & ALERT MANAGEMENT

Direct control over services, warn users of usage thresholds, activate SIMs on arrival.

EMAIL [SALES@INTERCITY.TECHNOLOGY](mailto:SALES@INTERCITY.TECHNOLOGY) TO REQUEST A DEMO

### IMPORTANT PRICING NOTES:

• Pricing excludes V.A.T • All devices subject to availability • Information and prices correct at time of publishing (Can be subject to change)

Please note that pricing in this catalogue is confidential and must not be distributed outside of your business.

## Welcome to the March issue of Intercity Tech

Mobile working is vital for businesses today – it's driving productivity and improving flexibility for employees. Working anytime, anywhere, 24/7 is quickly becoming the norm.

At Intercity Technology we want the world to be your office so your business can be mobile with email and internet at your fingertips, mobile broadband on your tablet and the latest smartphones running all your essential business apps.

We understand that choosing the right

mobility solutions can be overwhelming – our team of experts work with a wide range of suppliers so you don't have to. We work collaboratively with our customers, offering advice and guidance ensuring you are confident you're implementing the right technology and solutions to help you meet your business goals.

This brochure is designed to give you a clear overview of the latest mobiles and tablets available through Intercity Technology. It allows you to compare

and contrast specifications alongside solutions to secure and manage your mobile fleet.

Take a moment to read Tech View on page 36. David Brady, Senior Technical Consultant, Intercity Technology, discusses Corporate Owned Personally Enabled policies, the security risks to businesses when devices are used for both personal and business purposes and the solutions available to help minimise these risks.

## Intercity Technology Team

Helping you change the way you work.

## Change the way you work

Intercity Technology is a leading enterprise mobility and IT solutions specialist. We deliver world-class service and unrivalled technology expertise to keep businesses secure, drive productivity and enhance the performance of organisations.

We offer 24x7 N3 Approved network operations centre and a whole host of leading technology partners. We are an approved G-Cloud Supplier as well as ISO14001, ISO27001 and ISO9001 certified. In addition we are Cyber Essentials accredited and a Commercial N3 Aggregator.

Deliver Your Infrastructure

Mobilise Your Business

Secure Your Environment

Enable Global Collaboration

## Samsung J5

Low in price but  
High in quality

Incredible functionality is at your fingertips with the Samsung Galaxy J5. Enjoy exceptional pictures and videos with crystal-clear 5.0" Super AMOLED screens, outstanding hardware performance and versatile cameras.

- Enjoy a crystal-clear 5.0" Super AMOLED screen
- Superior and fast F1.9 lenses for both rear and front camera
- Make the most of a high-capacity battery

## Samsung A5

Fast, long-lasting and  
beautifully designed

Be ready for anything that life throws at you with a fusion of solid, premium-feel metal and robust 2.5D Gorilla Glass 4. Insert a microSD card into the built-in slot and keep more of your favourite music, photos or videos. At only 4.7 inches long, the A5 is compact enough to fit perfectly into your life.

- Take brighter, crisper images
- Extended power and fast charging
- Get more out of your A5 with expandable memory
- Improved security – safe fingerprint recognition

# Premium

## Samsung S7 & S7 Edge

Modern, elegant and super-powerful

- Dedicated game control centre and gameplay recording
- Water and dust resistant
- The first smartphone camera to have a professional-grade Dual Pixel Sensor with which you're able to take crisp, clear photos in the dark
- A powerful CPU that makes the S7 & S7 Edge 30% faster than previous models

**SAMSUNG**

**Galaxy A5 | A3**

Introducing the new Galaxy A  
**Give your team the power to perform**

**Enjoy More Good Days at work with the new, powerful Galaxy A.** Built for business, it delivers powerful all-round performance, with features and functionality that stand out from the crowd. Combining elegant looks with smart security, and bigger storage with long lasting battery - the Galaxy A3 and A5 give your business the power to perform.

**NEW FOR 2017**

**SAMSUNG COMPARISON GUIDE**

**A Stylish Design**

The smooth, curved body fits perfectly in your hand. With a range of colours to match your style.

**Picture Perfect**

Always look your best, day or night, thanks to the high resolution, low light cameras.

**For Your Everyday**

With water and dust protection and a MicroSD slot for all your content, the A3 is well ahead of the competition.

iPhone SE

**Galaxy A3**

# Vodafone Secure Device Manager – Airwatch

## Easy setup

Configure mobiles and tablets with your email and network settings at the touch of a button. You'll have a single inventory of all smart devices, with the ability to monitor their use and send software updates to your entire estate.

## Improve responsiveness

Our research shows that 72% of staff feel that using their own device for work increases their responsiveness, due to their familiarity with the device.

## Predictable costs

With a simple monthly subscription based on the number of devices you're managing, including the cost of any software licences, VSDM offers predictable costs that will help you manage your technology budget.

## Easily reach a distributed workforce

Securely send software updates from one central location to your whole workforce, or designated employees, no matter where they're located.

## Reliable and available

VSDM is supported by our expert teams. Operating under enterprise grade SLAs covering both incident resolution times and security, we provide a service you can rely on.

## Being ready means managing the security of all your mobiles and tablets from a single portal.

Vodafone Secure Device Manager (VSDM) is a scalable solution that helps you ensure the compliance of your mobile devices – and the security of your organisation's data. Using secure remote monitoring, you can update software from a central location, and even lock or wipe devices if they get lost, stolen or damaged.

VSDM can be deployed quickly and easily across your entire mobile estate – including personal mobiles and tablets used under Bring Your Own Device (BYOD). You can host it behind your own firewall, in our secure data centres or as a hybrid installation.

## Support as many devices as you need

VSDM can scale up or down to match any changes you make to your business, letting you add new devices within minutes or define and amend user profiles and groups to suit your organisation's needs.

## Remote lock/wipe protects your data

If a device is lost, stolen, misused or shows any sign of attack, you can lock it remotely in minutes. In the event of an emergency, corporate data and device configuration details can even be wiped.

XPERIA X  
Always One Step Ahead

SONY

The Xperia X range consists of the X, XA, XA Ultra, XZ and X Compact.

# BlackBerry Unified Endpoint Management (UEM)

## MANAGE ALL ENDPOINTS

Streamline IT Administration. Enhance Enterprise Compliance.

### Console

The BlackBerry UEM admin console offers a highly intuitive interface for unified management of:

- Endpoints (with multi-platform MDM/MAM)
- Content (via BlackBerry Workspaces)
- Secure Apps (via BlackBerry Dynamics)
- Identity (via BlackBerry Enterprise Identity, 2FA)

### Controls

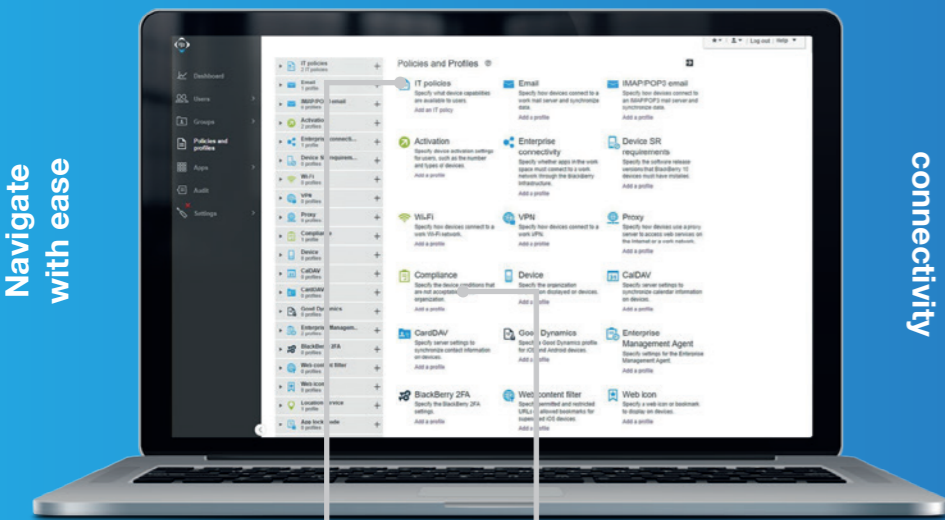

Rich policy controls across users and groups ensure consistent, efficient enforcement of IT standards.

### Reporting

Dashboards and reporting help IT to monitor and maintain enterprise-wide compliance.

Navigate with ease

Configure enterprise connectivity

Create policies in seconds

Stay compliant

**IT policies**

Specify what device users.

[Add an IT policy](#)

**Compliance**

Specify the conditions devices and Android devices or rooted devices.

[Add a compliance profile](#)

You Can Extend the Power of BlackBerry UEM Today in a Wide Range of Ways With Other Components of the BlackBerry Enterprise

### Work

BlackBerry® Work provides a best-in-class business email and collaboration experience while protecting sensitive business data.

### Dynamics

The BlackBerry Dynamics Secure Mobility Platform offers full multi-OS containerisation for a wide range of collaboration, line of business (LOB), ISV and custom built apps.

### Workspaces

BlackBerry Workspaces deliver secure content management and collaboration capabilities and file-level Digital Rights Management (DRM) protection.

### Enterprise Identity

BlackBerry Enterprise Identity enables single sign-on to cloud services from any user device for easy identity and access management.

### 2FA

BlackBerry 2FA allows IT to replace outdated token solutions by using a secure credential on users' mobile devices for 2-factor authentication.

## Sony Xperia E5

- Superior 5-inch touchscreen display with a resolution of 720 x 1280 pixels
- Make the most out of your pictures with the 13-megapixel rear sensor with auto-focus, HDR, flash and a 3 times zoom paired with a 5MP front facing camera
- Reliable and robust

## Sony Xperia XA

- The camera is always ready with a fast-launch camera button
- Slim and stylish with rounded screen edges
- Runs on an advanced 64-bit Octa-core processor so your smartphone is super-fast and super-smooth, and uses less power

## Xperia XA Ultra

- With a 16-megapixel low-light front camera and a 21.5-megapixel main camera
- A flash for perfect night selfies - naturally illuminates both your face and the background
- Optical image stabilisation compensates for hand shake so images are sharp, even at night

## Sony Xperia X Premium

- Crafted with a seamless metal back and with the curved glass edges of its display and perfect 5" size screen
- The 23-megapixel camera cleverly predicts the next move, so you can catch all of life's great moments, with quicker response times and even more intelligent focus
- For all your selfies, the 13-megapixel front camera offers round-the-clock sharpness with Sony's renowned low-light sensors

## Sony Xperia XZ Premium

- Allows you to capture even moving objects - bringing together the power of an imaging sensor and a laser autofocus sensor, you can freeze movement in the sharpest detail, even when the light is low
- Available in a range of striking colours. The back is made from high purity ALKALEIDO™ metal, adding depth, shine and brightness to the finish
- Water resistant - it is built to withstand the splashes that are a part of everyday life
- A smartphone that gets smarter and more personal as you use it.

## iPhone SE

- Most powerful 4-inch smartphone ever
- Embedded directly into the A9 chip, the M9 motion coprocessor connects to the accelerometer, compass and gyroscope for a range of fitness-tracking capabilities, such as measuring your steps and distance
- 12-megapixel camera captures incredible photos and 4K videos, which is up to four times the resolution of 1080p HD video

## iPhone 6S Premium

- Come with retina displays that support 3D Touch
- 12-megapixel rear camera now lets you record videos in 4K video resolution
- FaceTime camera improvements with 5-megapixel and 720p HD

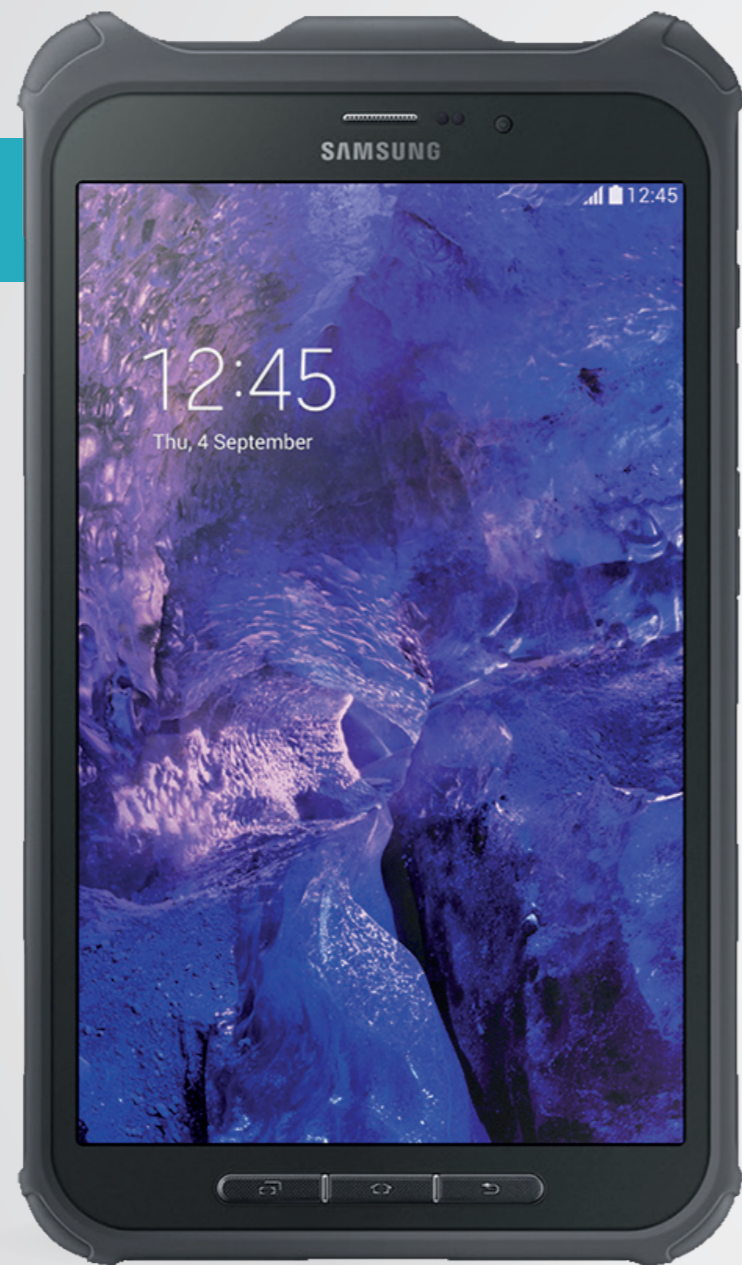

## iPhone 7 Premium

- Most powerful A10 Fusion chip, it uses an all-new architecture that enables faster processing when you need it, and the ability to use even less power when you don't
- The longest battery life ever in an iPhone, you can work at twice the speed of iPhone 6 and still enjoy more time between charges
- Splash and water resistance
- Optical image stabilisation, an *f/1.8* aperture and a six-element lens
- New 7MP front-facing camera
- For the first time, iPhone comes with stereo speakers, delivering two times the audio output of iPhone 6s and increased dynamic range

## 8" Tab Active Rugged Waterproof

- IP67 certified for dust and water ingress
- The ability to withstand extremely high temperatures, and drop tested to 1.2 metres, which is ideal for any harsh conditions
- User-replaceable battery ensure business continuity with up to 8 – 10 hours of continuous operation
- Easy NFC device pairing and tag reading. A 3.1-megapixel (MP) Auto Focus (AF) camera with a Flash feature enables easy, efficient barcode scanning

## 7" Galaxy Tab A

- Stylish and sophisticated design – Curved edges create a soft, modern look with a slender profile of only 8.7mm and 289g
- Capture true-to-life pictures with the autofocus camera, with more diverse effects such as animated GIFs and panoramas
- Enjoy the convenience of a longer battery life (4,000mAh), plus expandable storage (1.5GB RAM and up to 200GB SD)

## 9.7" Galaxy Tab S2

- Remarkably slim (5.6mm) and ultra-lightweight (392g)
- Dynamic viewing experience – run multiple apps in split screen mode or in draggable pop-ups
- With fingerprint verification to restrict / allow access to your device

## 10.1" Galaxy Tab A

- It's WUXGA (1920x1200) display features twice as many pixels as other standard HD screens
- Simply connect via Wi-Fi direct to share and watch content between your TV and Tablet
- The enhanced 8MP camera with autofocus, F1.9 aperture and advanced HDR (rich tone) feature allows you to capture great images even in low light conditions

## 8" Galaxy Tab S2

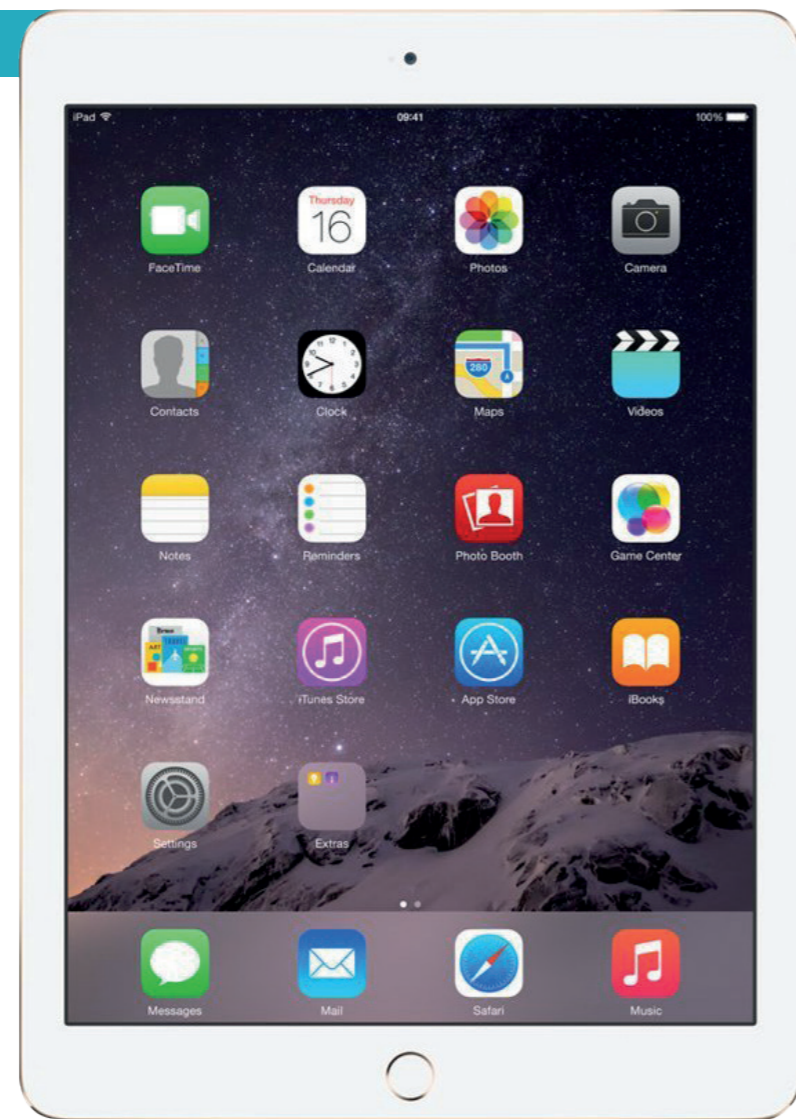

- Ultra-lightweight tablet with fingerprint verification to restrict / allow access to your device
- Optimised for magazine reading and web use with a 4:3 ratio display – with the ability to create an ideal eBook reading environment designed to reduce the strain on your eyes
- The 8 MP camera and f / 1.9-aperture lens allows you to take crisper and brighter pictures and videos even in low-light conditions

## iPad Air 2

- ▶ Extremely thin (6.1mm) and light (437g) design, you almost forget it's there
- ▶ Touch ID technology
- ▶ The iSight camera delivers advanced features like panorama, time-lapse videos, slo-mo, and burst and timer modes
- ▶ Wi Fi + Cellular model is equipped with faster, more advanced 4G LTE technology

## iPad Pro | Premium

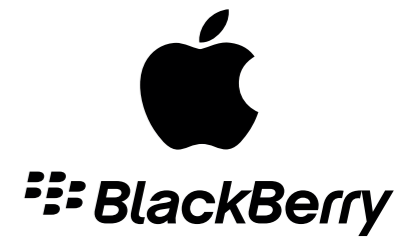

- ▶ Retina display - The 9.7-inch screen is the brightest and least reflective in the world while the 12.9-inch has the highest resolution of any iOS device
- ▶ True Tone display - with advanced four-channel ambient light sensors to automatically adapt the colour and intensity of the display to match the light in any environment
- ▶ High-fidelity speaker - automatically adjusts the orientation of the high frequencies to the topmost speakers, no matter how you're holding it
- ▶ With a 64-bit A9X chip that gives the power to easily take on any task once reserved for a PC while still enabling up to 10 hours of battery life

# Protect your data & manage your usage

Growing security risks and uncontrolled data usage can create major headaches for those responsible for maintaining mobile data fleets.

Wandera offers organisations a complete remedy using a unique gateway architecture to provide industry-leading enterprise mobile security and data usage management.

## ENTERPRISE MOBILE SECURITY

### MOBILE THREAT DEFENSE

Multi-level protection keeping your mobile fleet safe from threats, vulnerabilities and data leaks

### CONTENT FILTERING

Control which sites and applications are accessible via corporate devices, minimizing exposure to untrustworthy domains.

## DATA MANAGEMENT

### EXPENSE MANAGEMENT

Use real-time data analytics to not only understand what's driving your next data bill, but how to control it too.

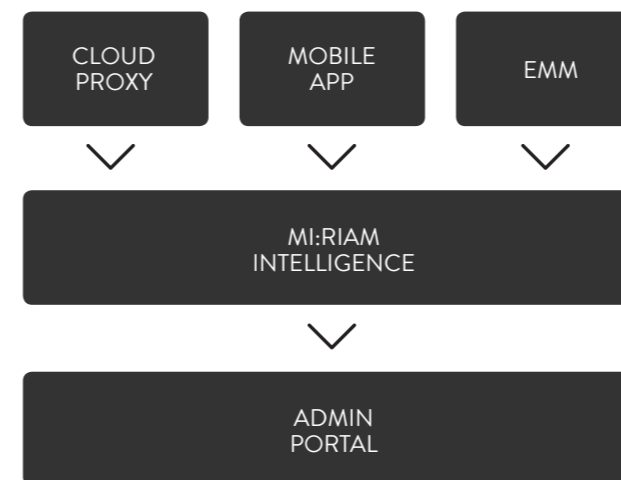

### POLICY ENFORCEMENT

Create and enforce rules about which behaviours, sites and apps are considered acceptable to enforce an acceptable usage policy suitable for your business.

## Why Wandera?

### UNIQUE ARCHITECTURE

Wandera's multi-level architecture combines endpoint presence with in-line cloud gateway for maximum data visibility. With billions of mobile web requests daily, Wandera's cloud security and data intelligence engine protects against known and zero-day threats, while providing a deep set of customisable policy actions.

### POWERFUL PARTNERSHIPS

With flexibility at its core, Wandera can be incorporated into existing EMM and SIEM infrastructures, thanks to features like EMM Connect. Wandera offers deep integrations with leading EMM solutions, including AirWatch, MobileIron, Citrix and Intune.

### INDUSTRY RECOGNIZED

Recognised by Gartner in their 2016 Market Guide to Mobile Threat Defense solutions, Wandera's award-winning service stands alone in being able to offer the complete security solution for mobile.

## Containerisation – an effective method to ensure personal and work data remain separate

What are the risks? Smartphones and tablets are enormously beneficial in today's business world – raising productivity and improving flexibility allowing you to work anytime, anywhere.

The majority of businesses deploy a Corporate Owned Personally Enabled (COPE) policy. This model enables work related services (email,vpn,wifi) with device security (password/encryption) as well as allowing the user freedom to further install personal apps, such as social media and email.

With a COPE policy in place a mix of personal and work related apps make their way onto corporate devices and while these apps can aid productivity of employees, a growing concern for businesses is how these apps access corporate data once installed.

Management and compliance of smartphones and tablets is now commonplace via Enterprise Mobility Management/Mobile Device Management (EMM/MDM) solutions – however these solutions alone don't negate the fact that personal and work apps are in the mix on corporate devices, increasing the security risk for businesses.

### COPE CORPORATE OWNED PERSONALLY ENABLED

- Full access to all app stores
- Hardware & Software policy controls at min levels
- Privacy options
- Corporate data containerised (optional)

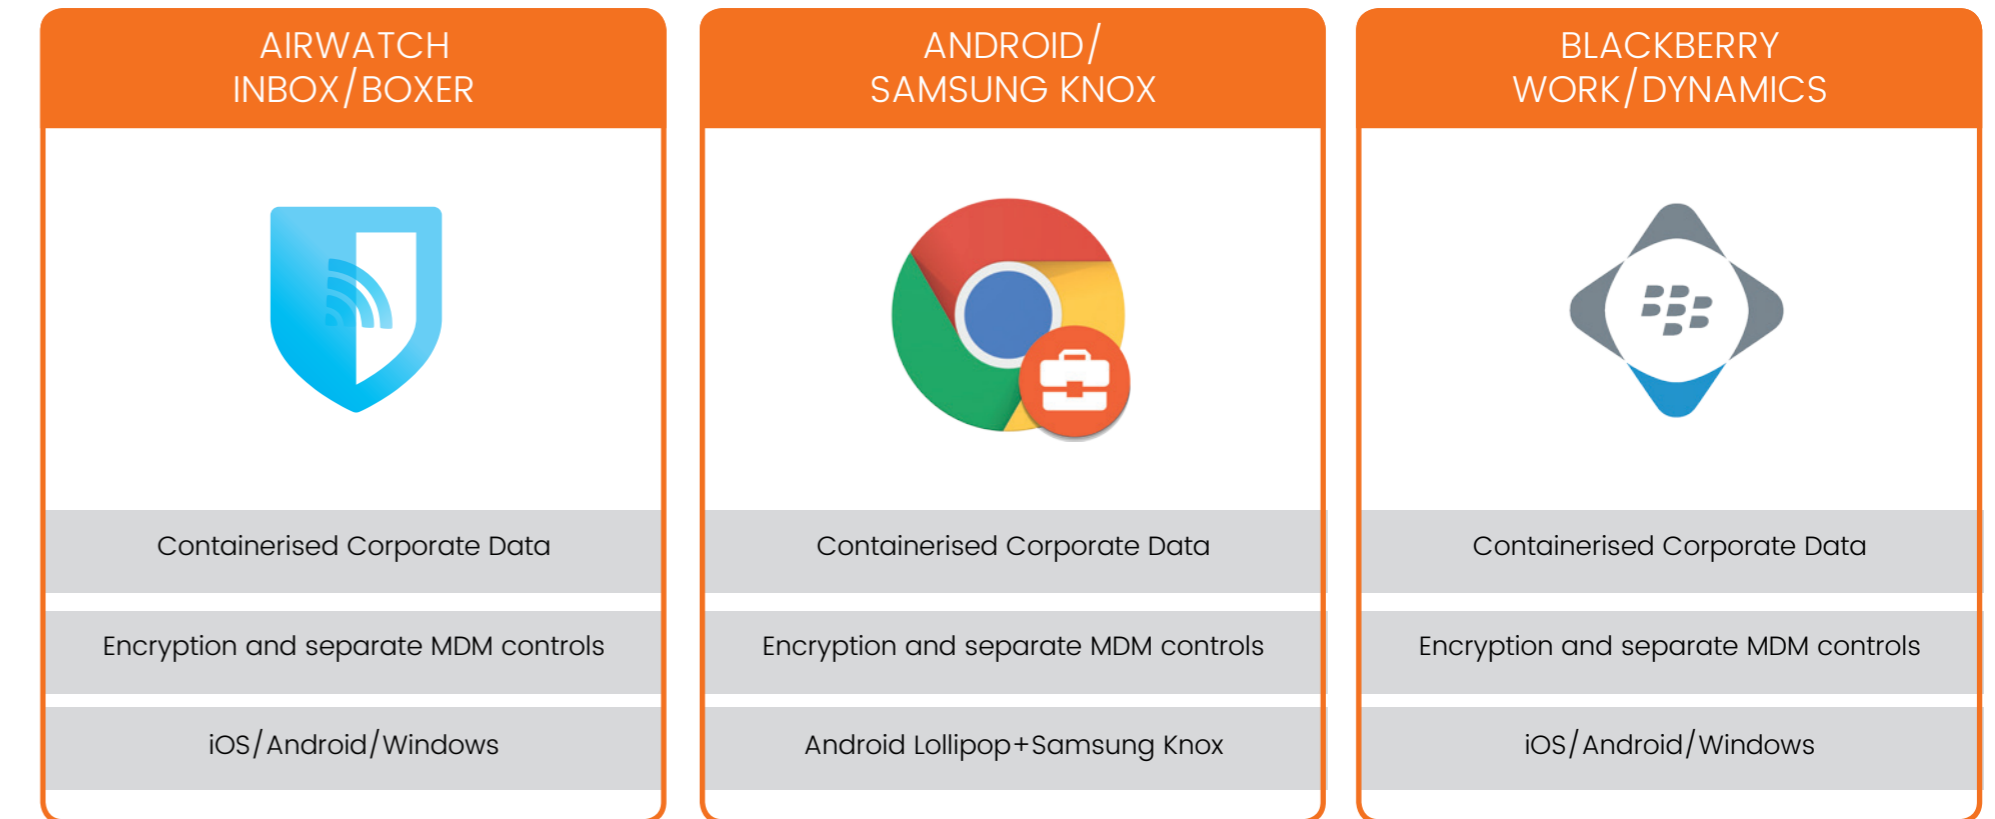

### COBO CORPORATE OWNED BUSINESS ONLY

- Access to select apps only
- Hardware & Software controls at max levels
- Admin has access to all
- Corporate Data in native apps

## How can risks be managed?

One way to mitigate the risk of work and personal data mixing is to use your MDM service to separate work data (email, calendar, contacts etc) into selective apps or services – this is often referenced as containerisation and can be enabled in a variety of ways. For example using exclusive apps provided by the MDM to ensure work/personal accounts do not mix

(iOS/Android/Windows) or to use native applications with a work only iteration. (Android/Samsung Knox) Depending on the solution this can also allow you to choose which work apps your content can be opened in, for example word documents only opening in Microsoft Word, and how data can be moved from work to personal for example block copy/paste.

Read more about our EMM/MDM solutions in this document – VSDM–Airwatch – BlackBerry UEM and our unique data management and security solution Wandera – Contact your Intercity Technology Account Manager and Support Team for more information.
